## PROFESSIONAL SUMMARY

Senior full-stack and backend developer with 15 years of experience building web applications, REST APIs, microservices, system integrations, and data workflows. Java foundation with extensive production Scala/JVM experience, plus TypeScript, JavaScript, Angular, React, SQL, HTML, CSS, Git, Docker, and AWS S3. Delivered ERP integrations from the ground up, migrated legacy data through REST APIs, and supported client issue resolution, testing, deployments, telemetry, and service monitoring.

## ROLE FIT

Java and Scala

JavaScript and TypeScript

REST API Development

Microservices Architecture

Angular and React

SQL and Database Design

ERP and System Integration

Testing, Debugging and Incident Support

## WORK EXPERIENCE

**Corsearch (TrademarkNow)** | Helsinki, Finland

2023 - 2025

### Senior Software Developer

- Developed backend APIs in a microservices architecture with Scala, Http4s, FS2, PostgreSQL, RabbitMQ, Redis, and Docker.
- Implemented features, resolved defects, and supported issue resolution with clients, product owners, and frontend engineers.
- Managed development and staging deployments, including targeted cherry-pick releases for testing.
- Worked through Jira and Slack, using telemetry, service monitoring, ScalaTest, and production issue investigation.
- Provided guidance and support to junior developers when needed.

**Canter Oy (now Adeona)** | Espoo, Finland

2018 - 2022

### Full-Stack Software Developer

- Delivered customer ERP integrations from the ground up, working to project specifications and REST API contracts.
- Migrated and transformed legacy data into a web-based Product Information Management platform through REST APIs.
- Built features, fixed defects, wrote tests, and delivered system improvements across backend and frontend surfaces.
- Worked with Scala, Akka, Play Framework, Angular, TypeScript, RxJS, Elasticsearch, PostgreSQL, MongoDB, RabbitMQ, Redis, Specs2, Jest, Docker, and Git.

**Truppr** | Lagos, Nigeria

2013 - 2017

### Software Developer and CTO

- Developed REST APIs supporting integrations between the platform and its web and mobile applications.
- Implemented features, resolved defects, and supported developers with API integration, testing, web application work, and production deployments.
- Worked with Scala, Akka, Play Framework, PostgreSQL, Elasticsearch, TypeScript, JavaScript, Angular, Ember.js, Firebase, JUnit, and Git.

**Bloovue / The Noah69 Company** | Lagos, Nigeria

2010 - 2012

### Lead Software Developer

- Built a web-based advertising application on OpenX to manage ad delivery across local publishers and news websites.
- Developed the frontend with a UI designer, plus ad-management tools and an administrative dashboard.
- Worked with Java, J2EE, Wicket, Scala, JavaScript, Apache Tomcat, and Git.

SELECTED SYSTEMS

Canter / Adeona PIM Integrations System Integration

Built customer ERP integrations from project specifications and moved transformed legacy data into a web-based PIM through REST APIs.  
Scala | Akka | Play Framework | Angular | TypeScript | REST APIs | PostgreSQL | Elasticsearch

Corsearch / TrademarkNow Backend Services Microservices

Delivered backend API features, defect fixes, release support, telemetry, and service monitoring in a microservices environment.  
Scala | Http4s | FS2 | PostgreSQL | RabbitMQ | Redis | Docker

Bloovue Advertising Application Java Web Application

Built an OpenX-based application for creating, delivering, monitoring, and reporting on digital advertisements.  
Java | J2EE | Wicket | Scala | JavaScript | Apache Tomcat

EDUCATION

Advanced Diploma (Hons) in Software Engineering, Java Technologies - NIIT, Lagos 2005 - 2008

PROFESSIONAL DEVELOPMENT

- Functional Programming Principles in Scala - Coursera 2012
- The Art of Leadership - LinkedIn Learning 2023
- AI for Designers - Side School 2025

TECHNICAL SKILLS

**Languages:** Java, Scala, JavaScript, TypeScript, Dart, Go    **Backend:** Play Framework, Akka Streams, Http4s, Cats Effect, FS2, Node.js, REST APIs  
**Frontend:** Angular, React, Vue.js, Ember.js, RxJS, HTML5, CSS3, SCSS, Tailwind    **Data:** PostgreSQL, MySQL, MongoDB, Elasticsearch, Redis  
**Messaging and Storage:** RabbitMQ, AWS S3, MinIO/S3  
**Quality and Delivery:** ScalaTest, Specs2, Jest, JUnit, Jira, Docker, Git, telemetry, service monitoring
